Once I have started with my project regarding the knife I refer as on the best form from designing and usage point of view. The most important thing was to shape the handle handle by ergonomic form. I gave attention also to the security of the product, thus I have formed special finger guard by usage of this treatment. Since I have designed the handle in a unique way, I have named it 'KIND REGARDS' therefore I have designed a unique etched form on the handle.

As we all know the Kitchen is an important part of our home, in which all the family gather together therefore it was important for me to create such a product, which is not only practical but also will catch the eye. After finishing my work I have entered the ergonomics competition and
